

Monsoon Coat

The Monsoon raincoat is an essential outfit for every dog in rainy, windy or muddy weather.

The entirely new technical structure of the collar means that the seams can be taped even more comprehensively than before. In contrast to previous models, Monsoon's collar seams are vertical, allowing the collar to be taped so that it is fully waterproof. In addition, there is a rain collar made of waterproof tricot around the edge of the collar, preventing water from going inside the coat along the dog's neck. The comfortably soft collar can be tightened up around the dog's neck to protect the chest and neck area.

The large, attractive reflective prints on the coat's rear hem and the 3M reflector piping on the back improve safety and visibility in the dark. The excellent sizing of the Monsoon coat guarantees a good fit for most breeds. The wide belly flap keeps the coat in place, ensuring that it stays on without restricting the dog's movement, even during boisterous play. The flap covers the dog's belly and efficiently protects it from mud and sand. Monsoon is made of an elastic and silent fabric, so it is comfortable to use and quick to put on.

- Surface fabric 100% PES 150D
Mechanical stretch
- On ECO version shell fabric, lining and belt are made from 100% recycled material.
- Waterproof and breathable, laminated material: water-resistance: 10,000 mm, breathability: 500g/m²/24h
- Tearing strength: Weft 15.3N; Warp 19.4N
- Lining technical 100% PES mesh fabric, 120g/m²
- The seams are taped shut, making the coat waterproof
- Both the lining and surface fabric are certified to be safe and free of harmful substances in accordance with the Öko-Tex-standard 100.

Weatherproofness

Water column at least 10 000 mm

Adjustability

Adjustable at least 20% on back length, neck and waist

Visibility

Luminous intensity of reflectors is 400-500 lx/m²

Warmth

Outdoor temperature between +20°C and 0°C / 70°F and 30°F
